Pediatric and Adolescent Oral Radiology: From Radiation Safety to Lesions and CBCT

Presented by Dr. Juan F. Yepes

This seminar will provide to the attendee the most common radiographic lesions that are presented in infants, children, and adolescents. The seminar will use case-presentation as the learning and discussion format and will cover the entire spectrum of oral radiology in pediatric dentistry. Topics such as radiation safety, digital radiology, CBCT in pediatric dentistry, radiographic interpretation and common radiographic lesions in children will be covered in this seminar.

After attending this seminar, the participant will be able to:

- Understand the importance of “building” a differential interpretation in radiology
- Learn the most common radiographic lesions in infants, children and adolescents.
- Learn the indications of CBCT within the frame of practicing pediatric dentistry
- Understand the importance of radiation safety in the practice of dentistry with children and adolescents

Juan F. Yepes DDS, MD, MPH, MS, DrPH is a full professor in the Department of Pediatric Dentistry and the associate dean for graduate education at Indiana University School of Dentistry and an attending at Riley Children Hospital in Indianapolis, Indiana. Juan F. is also a clinical professor at the University at Buffalo. Juan F. is a dentist (DDS) and a physician (MD) from Javeriana University at Bogotá, Colombia.

Juan F. is board-certified by the American Boards of Pediatric Dentistry, Oral Medicine, and Dental Public Health. He is an active member of the American Academy of Pediatric Dentistry, American Academy of Oral Medicine, American Academy of Oral and Maxillofacial Radiology, Indiana Dental Association, and American Dental Association. Juan F. is a fellow in dental surgery from the Royal College of Surgeons at Edinburgh. He is a member of the editorial board of Oral Surgery, Oral Medicine, Oral Pathology, and Oral Radiology. Finally, Juan F is the associate editor of the Journal of the American Dental Association (JADA).

The “March” Towards Leadership

Presented by COL Peter H. Guevara

This seminar will discuss Colonel Guevara’s individual path to becoming a leader in the U.S. Army Dental Corps as well as leader in the realm of organized dentistry. Dr. Guevara will describe how he developed the skills needed to be a Commander of a large Dental Activity, as well as how those skills helped him become the Dean of the Army Postgraduate Dental School. Dr. Guevara will also highlight his journey through various leadership positions in organized dentistry. The intent is to provide attendees with a variety of ideas and resources they can draw from in their own development as a leader.

Learning Objectives:

- Describe and discuss some paths to leadership.
- Compare and contrast the traits and characteristics of most leaders.
- Discuss leadership within the American College of Dentists framework.

COL Peter H. Guevara currently serves as Commander of the Fort Carson Dental Health Activity in Colorado. Colonel Guevara has been active in the US military for over 28 years. He has combat deployments to Afghanistan and Iraq to his credit.

COL Guevara is originally from Pittsburgh, Pennsylvania and is a 1992 graduate of the University of Pittsburgh’s School of Dental Medicine. He completed a 1-year GPR in 1993, a 1-year hospital dentistry fellowship in 1994 and a 2-year comprehensive dentistry program in 2001. He has been actively involved in dental education since 2005.

COL Guevara is a Master in the Academy of General Dentistry (AGD) and a Diplomate of the American Board of General Dentistry. He is a member of the Omicron Kappa Upsilon Honor Dental Society, and he is a Fellow of the International College of Dentists and the American College of Dentists.
