This society is a professional organization formed to promulgate the high ideals of Dr. John F. Johnston in learning, teaching, and practicing in the field of fixed and removable prosthodontics. Dr. Johnston was a very kind man and had an innate ability to lead in his field of dentistry. With his vision, he established the training program that attracted dentists globally. It was an honor to be accepted into his program. Many of the alums continued in his path and became leaders at their institution as program chairs, deans, and presidents of organized dentistry. The IUSD program has made a profound impact in dentistry locally and globally.

Dr. Johnston dedicated his life to prosthodontic education. His very generous donation has established the John F. Johnston Scholarship awards that are presented to the prosthodontic residents at IUSD.

This course will cover a multitude of topics including all specialties of dentistry and their integration in prosthodontics. It is our honor for Dr. Charlie Goodacre and Dr. Thomas Kepic to be presenting jointly on the Perio/Prosth collaboration in patient care. If that isn’t enough, we are honored to have Dr. Joseph Kan share his knowledge and experience in implant dentistry. Dr. Shaun Matthews from IU TMJ Institute will update us on the trends in treatment of joint disorders. Other topics will include digital workflow, updates in Endodontics and many more. This slate of speakers is one you will not want to miss!!!

LOCATION
Indiana University School of Dentistry
1121 W. Michigan St., Indianapolis, IN 46202

A block of rooms has been reserved at the JW Marriott. For reservations, go to: https://go.iu.edu/4NOR (case sensitive)
